Part II, Page 37—For J. Fraser, salary as Clerk from 1st September, 1878, to 30th June, 1879, read from *1st October*, 1878, to 30th June, 1879.

And for C. H. Terry, salary as Clerk from 1st September, 1878, to 30th June, 1879, read from *1st November*, 1878, to 30th June, 1879.

To the Honourable

Sir S. L. TILLEY, C.B., K.C.M.G.,

Minister of Finance.

SIR,—In compliance with the direction contained in Act 41 Vic., cap. 7, sec. 35, (the Audit Act) the undersigned has the honour to submit herewith the Public Accounts for the year 1878-79, and in so doing he begs to observe that with the exception of the omission of the abstracts of expenditure compared with the estimates, he has deemed it advisable to prepare the accounts in the same manner as in past years.

It will be observed by the preliminary statements appended to the Public Accounts, that the chief transactions during the year were the receipt of £922,784 2s. 1d. stg., on account of the Halifax Fisheries Award, and the placing in December 1878, of a four per cent. loan of £3,000,000 stg. on the London market; one half of the loan bearing the guarantee of the Imperial Government, the other half being unguaranteed. On the other hand, a six per cent. loan for £1,547,000 stg. matured during the year and was duly paid. Payments also were made on Capital Account, as follows:—

Lachine Canal .....	\$958,053 30
St. Lawrence Canal.....	152,357 82

	\$5,648,331 66

The effect of the transactions of the year has been to still further reduce the rate of interest payable by the Dominion on its indebtedness. On the gross debt at

the date of Confederation, the 1st July, 1867, the average rate was 5·21 per cent.; on the 1st July, 1879, the average rate was 3·95 per cent.; on the net debt during the same periods, the decrease has been from 5·41 per cent. to 4·51 per cent.; whilst on that part of the debt payable in England the decrease has been from 5·55 per cent. to 4·57 per cent. The undersigned anticipates that a still further reduction will be shown in the next Public Accounts, in consequence of a further amount of six per cent. debt having matured and been paid in England, and the six per cent. stock in Canada having been refunded into five per cent. stock.

The undersigned has had his attention chiefly occupied during the year with the reorganization of the Department rendered necessary by reason of the incorporation with it of the Department of the Receiver General. This change has been accomplished, and the undersigned is now engaged in an examination of the several accounts in the Balance Sheet, comprised under the heading of Miscellaneous and Banking, with a view to the adjustment of such as may be found to require it; and whilst on this subject, he begs respectfully to direct your attention, and through you the attention of the Public Accounts Committee, to several items included in the Assets side of the Balance Sheet, under the heading of Public Works, as, in his opinion, the time has come when, for the following reasons, this part of the statement of affairs should undergo revision.

Since Confederation the practice has been to charge only to Capital Expenditure the sums paid as additions to the Debt Accounts of the several Provinces forming the Dominion, the further sums paid for the surveys and construction of the Pacific, Prince Edward Island and Intercolonial Railways, the completion and extension of the Public Buildings at Ottawa, and the enlargement and completion of the Canals, and with the exception of the amounts paid for the purchase of the North-West Territory and for the organization of Government therein, no other expenditures have been entered in the statement of affairs. In fact, the only additions to the Capital Account in the Balance Sheet have been expenditures for what may be considered as national undertakings, and the annual outlay for new Custom Houses, Post Offices, Lighthouses, Piers, Dredging, &c., &c., has been made part of the ordinary expenditure. Before Confederation this was not the case, and many items now appear in the Balance Sheet which, had the present rule been always in use, would never have appeared there; and as the officials who had cognizance of the expenditures are gradually falling out of the Public Service, the undersigned considers the subject should have immediate attention. The value of the Public Works Assets, as exhibited in the Balance Sheet, amounts to \$101,396,587·67, and if divided in the two classes, might possibly be distributed as follows: (but these figures should be compared with the amounts shown in the books of the Departments of Railways and Canals and Public Works as the respective costs of the several undertakings.)
